

# Organic HighQ®

## PURIFIED FOR A SOFTER, CLEANER & MORE SUSTAINABLE FUTURE

Organic HighQ® is a certified organic virgin fiber that performs across a wide range of applications, thanks to our industry-leading purification process. It performs even in the lightest nonwoven fabric weights, making it unmatched in both quality and adaptability.

## ATTRIBUTES

- Proprietary purification process removes visible foreign matter and other impurities
- Smooth, clean fiber with high wet strength and low bioburden
- Upholds the highest standards of quality, safety, and sustainability
- Provides a more sustainable choice without compromising on quality or performance
- Meets US, European, and Japanese Pharmacopoeia standards for purified cotton

## RECOMMENDED PRODUCT APPLICATIONS

### FEMININE & ADULT CARE

### BABY CARE

### CONSUMER & MEDICAL

## PERFORMANCE

**High Absorbency** - Superior absorbency compared to other natural fibers

**High Wet Strength** - Naturally becomes stronger when exposed to liquids

**Free of Substances of Interest (SOIs)** - Purification process ensures the removal of any SOIs

**Organic Process** - Purified with approved organic chemistry

**Bioburden** - Minimal presence of bacteria, fungi, and other contaminants exceeding minimum industry standards
