

# Organic HyDri®

## PURIFIED FOR A SOFTER, CLEANER & MORE SUSTAINABLE FUTURE

This innovative natural fiber solution is designed for optimal moisture management. The unique properties of Organic HyDri® combine the softness of cotton with the non-absorbent properties of synthetics, creating a cotton product that offers the best in both performance and comfort.

## ATTRIBUTES

- Natural, soft, and sustainable
- Carefully purified to preserve the fiber's natural oils and waxes
- Remains hydrophobic through demanding hydroentangling processes
- A perfect natural alternative to synthetic fibers
- Provides a softer, purer, and whiter solution for hygiene and personal care products

## RECOMMENDED PRODUCT APPLICATIONS

### FEMININE & ADULT CARE

### BABY CARE

### CONSUMER & MEDICAL

## PERFORMANCE

**Improved Durability** – Withstands rigorous hydroentangling processes

**Nonabsorbent** – More Hydrophobic than other natural fibers, promoting dryness and comfort while preventing rewet

**White & Natural** – Natural alternative to synthetic fibers for nonwoven applications

**Free of Substances of Interest (SOIs)** – Purification process ensures the removal of any SOIs

**Organic Process** – Purified with approved organic chemistry
